CERTIFICATE OF MAILING UNDER 37 C.F.R. § 1.8

I hereby certify that this correspondence is being deposited in the United States Postal Service with sufficient postage as first class mail in an envelope addressed to Assistant Commissioner for Patents, Washington, D.C. 20231, on January 25, 2001.

  
Megan Beltran

Signature Date: January 25, 2001

DECLARATION OF MEGAN BELTRAN

I, Megan Beltran, declare that:

1. I understand that this Declaration will be filed in the United States Patent and Trademark Office in order to provide satisfactory evidence of facts indicating the seven sheets of the drawings were submitted in the above-identified application (the Application) as filed.
2. I am an employee of NewTechLaw at its place of business at 285 Hamilton Avenue, Suite 520, Palo Alto, California 94301. I have been employed as a paralegal/administrative assistant at NewTechLaw since August 21, 2000.
3. On or prior to January 2, 2001, I prepared the formal papers for the filing of the present divisional application of prior application 08/503,453, which included making a true and

complete copy of the prior application, consisting of the specification, seven sheets of the drawings and declaration from the prior application.

4. On or prior to January 2, 2001, I prepared a Utility Patent Application Transmittal Letter and return receipt Post Card identifying the parts of the divisional application being submitted for filing with the United States Patent and Trademark Office. I also prepared labels which were affixed to the back of the seven sheets of the drawings. I reviewed the contents of the application in connection with these documents and confirmed that all parts of the application identified as included by these documents were present in the application.

5. On January 2, 2001, I personally organized the application, confirming that the parts of the application listed by the transmittal letter and return receipt Post Card were present including specifically the seven sheets of the drawings bearing labels, and placed the application in an Express Mail (Label# EL 661 534 230 US) envelope. I then personally sealed and mailed the Express Mail envelope to the United States Patent and Trademark Office.

6. On January 18, 2001, the return receipt Post Card was received with the notation that the seven sheets of the drawings had not been received by the United States Patent and Trademark Office. I performed a thorough search of the NewTechLaw offices including the file wrappers of the present and prior applications. No copy of the drawings bearing labels affixed to the back of the drawings was found.

7. I hereby further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United

States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
